

PROCESS MANUFACTURING CAREERS INTERACTIVE WORKSHOP

TUESDAY, MAY 6, 2008

8:00AM TO 3:00PM

Bellingham Technical College - Center of Excellence

Did you know...?

With a 2 year A.A.S. Degree from Bellingham Technical College, technical professionals in the processing industry:

...START at \$17-\$25+ /hour

...work in plants that process a variety of products, from fuels to organic juices

...have skills that are in high demand all over the country

...often have multiple job offers to choose from at graduation

Workshop includes 4 breakout sessions with interactive lesson activities related to typical math skills used in process manufacturing. Participants will receive written lesson plans from each breakout session that can be used in their own classroom.

TO REGISTER

EMAIL: Terri Thayer
tthayer@btc.ctc.edu
Questions? Call 360-752-8495

Learn more about these high-wage careers, meet the instructors, and participate in hands-on activities in the labs at BTC's NW Center for Process Manufacturing
