## 2009–2010 DEGREE/CERTIFICATE PROGRAM COSTS \*

All costs listed are estimates only. In most programs it is expected that students will provide the minimum training essentials (prices listed to the left in each category) at the onset of the program, with additional costs to follow as they progress through the program (prices listed to the right). Price ranges for supplies will vary, depending on where they are purchased. Students enrolling in half-time programs may purchase textbooks at a different rate of time than students taking the same program full-time.
